Topics of Comments

■ cost ■ safety ■ climate ■ social ■ ferry

There were 112 comments provided for the question: “Is there anything else that is motivating you to want to use passenger transportation?”

Most were related to the cost of driving (fuel and vehicle costs) and to social issues such as transportation for youth and for seniors who may not be able to drive in the future.

Many (especially on Cortes) spoke about congestion on the ferry, and especially the need to leave a car parked overnight to be assured of getting on the first sailing.

Climate and ferry congestion were covered in a previous question so the level of response here may be artificially low.

There were 85 comments provided for the question: “Do you have any other suggestions for passenger transportation on Quadra, Cortes, or the outer islands that are not listed above?”

Of those, 14% were on the topic of improving infrastructure for cycling (bike lanes and dedicated bike paths).

A few of the other comments are listed here:

*Allow for booking
for the Cortes
ferry.*

*A city bus stop at the CR
ferry terminal would make
a big difference.*

*Shuttle bus
that runs only on
some days, not every
day of the week.*

*A HUGE problem is parking
in Campbell River. We and
all family and visitors are
forced to drive on to
Quadra.*

*Shopping
bus from
Cortes to
Campbell R.*

Carshare vehicles are rented/ booked within a member driven rideshare transport method and also available at times to be booked by ride-hail drivers, member businesses, community organizations etc.
